RE: NORTHERN ENVIRONMENTAL CCP GROUP TRAINING (YEAR 2004) FOR AUTO DISMANTLING FACILITIES (SIC CODE 5015)

Per WDNR requirements, all auto dismantlers (SIC CODE 5015) must attend annual group training. Some of the topics that will be addressed during the training session include: Discussion of information resulting from the WDNR / CCP administrator meeting held in February 2004; BMP requirements; reporting requirements, recordkeeping, annual reports, etc. The structure of this years training session will be less formal and allow more opportunities to receive comments and feedback from members in regards to BMP implementation, success stories, potential problem areas, etc.

Northern Environmental will be providing the following 3 training sessions.

Each CCP member must attend one of the following training sessions.

Tuesday May 11, 2004 Green Bay, WI Time 9:00 am to Noon
(phone number for Green Bay office: 800-854-0606)
